EDUCATION

MCA, Master of Computer Application | 2025 — Assam Don Bosco University, Guwahati

BCA, Bachelor of Computer Application | 2022 — St. Edmunds College, Shillong

EXPERIENCE

Future Transformation

Python AI Full Stack Developer Intern | April 2026 – October 2026

- Working on banking and fintech applications involving secure workflow automation, API integration, and enterprise system development.
- Contributing to AI-powered full stack solutions while gaining exposure to blockchain-based workflows and scalable backend systems.

Iewduh Techz Pvt Limited

App Developer | Jul 2025 – Dec 2025

- Built a real-time school bus tracking app using Flutter and Firebase with live GPS and attendance tracking.
- Led engineering of the Ong Yi App, a multi-service delivery platform with real-time order workflows and API integration.

Iewduh Techz Pvt Limited

App Developer Intern | Jan 2025 – Jun 2025

- Built a Flutter-based admin app for managing student attendance, fees, and academic records.
- Improved UI/UX and implemented real-time data updates using Firebase.

PROJECTS

- PrayagEdu Admin (Flutter, Firebase) — Built and deployed a Flutter-based mobile app for school principals to manage and switch between multiple schools, monitor staff attendance, student attendance, results, and PTM requests with real-time updates.
- AheadStudy (MERN, LLM APIs) — Built an AI-assisted learning platform with PDF upload, chatbot-based Q&A and automatic summarization.
- Employee Management System (MERN) — Developed a full-stack web application with role-based access (Admin, HR, Employee), featuring secure authentication, employee management, attendance tracking, and salary management.
- Guitar Generator (MERN, Python ML) — Built a system that generates guitar chords from uploaded audio using audio analysis.
